SUMMARY

Practical and adaptive Computer Science student with internship experience building scalable backend systems and secure APIs, along with strong full-stack development skills. Developed and deployed web applications used by 1000+ students and 100+ HRs. Interested in machine learning and cloud computing, with a hands-on approach to problem solving and continuous learning.

EXPERIENCE

Backend Developer Intern - Freightify

Sep 2025 - Present

- Designed and developed scalable backend services using Go and Node.js in a microservices architecture.
- Designed a schema-driven **dynamic CRUD platform** that automatically generates APIs and admin UI for any MySQL table, eliminating manual dashboard development.
- Implemented schema-driven validation, pagination, filtering, and role-based access controls.
- Debugged production issues and deployed services via CI/CD pipelines using Jenkins and Kubernetes

ACHIEVEMENTS AND EXTRA CURRICULAR

Pentathon 2025

May 2025

- Secured **AIR 19** out of 22000 participants from all over India in **Pentathon**, a national Cyber Security Capture The Flag(CTF) event organised by AICTE. Worked on reverse engineering, web exploitation and cryptography.

Tech Head, FORESE Club

Dec 2024 - Present

- Developed web apps for the club's events and internal usage, used by over 1000 students and 100 HRs.
- Utilized the React library alongside Node.js and MongoDB, POSTGRESQL to build robust, scalable full-stack web applications. Deployed the web applications to the cloud using AWS.
- Implemented an automated CI/CD pipeline ensuring continuous deployment with zero user downtime.

PROJECTS

C-Sar

September 2024

Denoising and Colorizing SAR Images Using CNN models

- Built a deep learning pipeline using DnCNN (denoising) and cGAN (colorization) to enhance SAR images and improve interpretability.
- Developed and optimized a web app integrating the ML model.
- Technologies used: TensorFlow, Flask, React.

SKILLS & TOOLS

Full-stack development	Machine Learning	SQL	Leadership
Dev Ops	Cloud Computing	Git & Github	Problem Solving

EDUCATION

B.E. Computer Science and Engineering

2022 - 2026

Sri Venkateswara College of Engineering, Sriperumbudur, India

ADDITIONAL INFORMATION

- Languages:** English, Tamil
- Programming Languages:** Java, JavaScript, GO, Python, C
